**Subject:** RE: Draft Summary of the SPECIAL MEETING OF THE Education subcommittee of the Transfer Station Advisory Committee - -Monday 3/11/2013 at 9:00 am in 206.

Draft Summary of the March 11, 2013 Special Meeting of the Education subcommittee on the Transfer Station Operations.

Attendees: Connie Melvin, chair, Allison Stolar, Carolyn Bayne, Dot Kelly, Sophie Cirillo, Darren Oustafine,

No votes were taken.

Logo - no decision but lots of conversation. Going around one more time. Sophie making some color and tweaking changes for us to review.

Newspaper Insert - lots of headway on making those corrections/changes. Added graphics and same print color to back. Look for an amended version to come to you from Sophie.

Fluorescents - rather than write - coming or take to hhw day - we are going to pursue getting this in place right now so it will simply be a "Accepted at Recycling Center" item. Darren came in and he will do what is necessary on his end regarding location etc. Hopefully today, with our presentation to the Selectmen this evening, we can confirm the Selectmen's desire to move ahead with fluorescent light bulb recycling collection at the transfer station.

Newspaper article - Connie will submit our "introductory" article to the paper to be printed either this or next week. Hopefully also establish a set date (2nd Week of the month) for future articles to appear.
