The minutes of the previous 2 meetings were approved as corrected by the following votes:

Sarah Seelye, Chair of the TGS&A Committee, gave a brief presentation of the ordinance that would be presented to the full RTM and distributed copies of the ordinance to the members of the committee. In the draft, Sec. 22.90 Purpose has been modified to eliminate the second sentence. A brief discussion followed. She noted that the Public Health Advisory committee in a memo stated that the ordinance was not a matter of public health nor a use of Public Health Department resources.

The Chair then asked for comments and changes to the draft of the Power Point deck dated 6/11/12 that would form the background of the PWC committees report to the full RTM at the September 24, 2012 meeting. It was suggested that the final copy be distributed to all RTM members with the Warning of the meeting as background for their vote. The committee plans to meet in September prior to the mailing to finalize the Power Point deck.

Once again, Ms. Schulz updated the committee about her view of the evolution of the sidewalk issue in her and the Chair's neighborhood.

There being no other business the meeting was adjourned.

Respectfully Submitted,

Steven A. Anderson
Clerk
